

Love the situation of “No Maintenance and Turn Key”

Rosalie and Roger Maxon, formerly of Clarendon, NY are enjoying their home in Sunflower Landing. They spend part of their year here in NY and part in Florida, so the No Maintenance and Turn Key situation suits them very well. Roger and Rosalie both agree that the builder, Michael Ferrauilo, Sr. is “fantastic to work with, especially when it comes to making changes to fit your specific needs and desires in the building of your new home”. Michael worked closely with the Maxon’s to help Rosalie build the kitchen of her dreams. Roger is impressed with the quality of the standard materials used in the building, as well as some of the finishing touches from the rounded corners to the pocket doors that make their home so special.
